

Berkem is historically a manufacturer for ingredients and extracts dedicated to pharmaceuticals

---

### PRODUCTS AND SERVICES FOR PHARMACEUTICALS

Our know-how is dedicated to production of vegetal extracts for pharmaceuticals. The majority of our extracts are polyphenols from pine bark & grape seeds :

- Grape seeds procyanidins
- Pine bark procyanidins: **Leucocianidol®**, active substance from Flavan®,

These extracts have venotonic properties.

Berkem can produce your active substance in compliance with Good Manufacturing Practices.

---

### POLYPHENOLS AND PHARMACEUTICALS

Polyphenols derivatives are of great interest for pharmaceutical area, due notably to their antioxidant power which warns from damages caused by free radicals, favouring microcirculation and strengthening vein walls.

We are AFSSAPS\* certified regarding substances with pharmaceutical purposes: active substance **Leucocianidol®**.

Our objective within the year 2009 is compliance with the european pharmaceuticals regulation.

---

### REGULATIONS

Berkem has its own Regulatory affairs department in order to manage requirements of european current regulations.
